

LM52, THE NEW MEXICAN LUCHA LIBRE LEAGUE, ARRIVES ON SPACE

Led by Alberto Del Río, a new league celebrating the tradition and evolution of Mexican lucha libre.

Mexico City, Mexico — March 3, 2026 — Mexican lucha libre enters a new chapter with the official launch of **LM52**, a new competitive, cultural, and media-driven league created to represent, preserve, and project the essence of Mexican wrestling to a global audience. Its competitions will be broadcast on **Space** and **Discovery en Español**.

Headlined by Alberto Del Rio, one of the most recognized figures in contemporary professional wrestling, **LM52** launches as a league designed to foster competition, open pathways for talent, and deliver an authentic, family-oriented, multigenerational experience — in constant dialogue with the sport’s deep tradition and its natural evolution.

LM52 was founded with the objective of becoming a platform for development, visibility, and consolidation for new generations, established wrestlers, and independent talent alike — strengthening the Mexican lucha libre ecosystem while expanding its international projection.

“LM52 is born from the love people have for lucha libre, and it represents freedom. It represents identity. It represents real competition. This league is created for the fans, for the wrestlers, and for the future of Mexican lucha libre,” said Del Río.

As part of its launch, **LM52** announces **Foro Interlomas** as its inaugural venue and official home, where the league’s television programs will be produced and recorded. The venue will serve as the central hub for competition, storytelling, and talent development, offering audiences and wrestlers alike an immersive and authentic live experience.

*“At **Foro Interlomas**, we are ready to demonstrate that lucha libre can be elegant, vibrant, and above all, a world-class show that stands alongside any international league. Today, we are not just launching a card — we are launching a promise: that within this Forum, a new chapter in the history of Mexican lucha libre will be written,”* stated Mario Galván, CEO of **Foro Interlomas** and JVP Entertainment.

Broadcasts originating from Foro Interlomas will reach audiences across Mexico and the United States through **Space** and **Discovery en Español**, as part of a strategic alliance

with **Warner Bros. Discovery**, which joins the league as its official broadcast partner beginning in May 2026.

This collaboration ensures **LM52**'s presence on pay television and within a multiplatform distribution model from its first year, expanding its reach and connecting with regional and international audiences.

*"For **Warner Bros. Discovery**, investing in local content is fundamental, and sport remains one of the most powerful ways to connect with audiences. Mexican lucha libre expresses identity through spectacle, and **Space** is the natural home to amplify that experience,"* said Fernando Sugueno, Vice President of Content and Programming for **WBD Mexico**.

"Our audience maintains a deep emotional connection with lucha libre — it represents tradition, resilience, and community. This program offers U.S. Hispanics a renewed way to experience the sport they love, while introducing new audiences to one of the most vibrant expressions of our culture," added Hortensia Quadreny, VP of Programming for **WBD U.S. Hispanic**.

LM52 is led by Ricardo Moreno, Executive Director of the league, supported by a team with extensive experience across the entertainment, media, and sports industries. Alberto Del Río, nine-time world champion and one of the most emblematic figures in professional wrestling, joins this new chapter as founder and sporting reference.

Headquartered in Mexico with a global growth vision, the league begins its journey in dialogue with the history of Mexican lucha libre while actively building its future.

*"**LM52** is founded on a clear vision for growth and international expansion. The alliance with Warner Bros. Discovery allows us to bring the league's talent and stories into millions of homes from its very first year,"* said Moreno.

With the birth of **LM52**, Mexican lucha libre enters a new era — one that combines tradition, structured competition, and contemporary projection. From its official home at **Foro Interlomas**, and through broadcasts on **Space** and **Discovery en Español** beginning in May, this new league will begin writing its stories in front of live audiences, inviting fans in Mexico and the U.S. Hispanic market to experience a renewed way of living Mexican lucha libre.
